

CHATBOT-IN-PYTHON

STEP 1: Install Required Software

Install Python

[Python Official Website](#)

During installation:

✓ Check **“Add Python to PATH”**

Install VS Code

[VS Code Official Website](#)

Install extensions:

- Python Extension
-

Install Git

[Git Official Website](#)

STEP 2: Download Chatbot Project

Open VS Code terminal and run:

```
git clone https://github.com/mr-jannu/ChatBot-in-Python.git
```

Go to folder:

```
cd ChatBot-in-Python
```

Open in VS Code:

```
code .
```

STEP 3: Create Virtual Environment

In terminal:

Windows

```
python -m venv venv
```

Activate:

```
venv\Scripts\activate
```

STEP 4: Install Libraries

Run:

```
pip install nltk
```

If requirements file exists:

```
pip install -r requirements.txt
```

STEP 5: Download NLTK Data

Create a file named:

```
download_nltk.py
```

Paste:

```
import nltk  
  
nltk.download('punkt')
```

Run:

```
python download_nltk.py
```

STEP 6: Create Simple Chatbot Code

Create file:

chatbot.py

Paste this simple chatbot code:

```
print("AI Chatbot Started!")
print("Type 'bye' to stop.")

while True:
    user = input("You: ").lower()

    if user == "hello":
        print("Bot: Hi!")

    elif user == "how are you":
        print("Bot: I am fine!")

    elif user == "what is your name":
        print("Bot: I am AI Chatbot.")

    elif user == "bye":
        print("Bot: Goodbye!")
        break

    else:
        print("Bot: Sorry, I don't understand.")
```

STEP 7: Run Chatbot

In terminal:

```
python chatbot.py
```

Example:

```
You: hello
Bot: Hi!

You: how are you
Bot: I am fine!
```

STEP 8: Create GitHub Repository

Go to:

[GitHub Official Website](https://github.com)

Create repository:

AI-Chatbot-Project

STEP 9: Upload Project to GitHub

In VS Code terminal:

Initialize Git

```
git init
```

Add Files

```
git add .
```

Commit Files

```
git commit -m "AI Chatbot Project"
```

Connect Repository

Replace YOUR_USERNAME:

```
git remote add origin https://github.com/YOUR_USERNAME/AI-Chatbot-Project.git
```

Push to GitHub

```
git branch -M main  
git push -u origin main
```
